# A Message from Mark S. Earley, Supervisor of Elections

2024 is going to be busy election year! Traditionally, presidential elections have higher turnout than other years, and we also have an entire third election on the calendar. The March 19 Presidential Preference Primary Election is just the beginning of the 2024 Election Cycle. And with such a busy year, I encourage you to be **Election Ready**.

Take a few minutes to check your voter information, such as your address and party affiliation, as your ballot can depend on both. And if you want to vote by mail, make sure to request your Vote-by-Mail ballot. You can take care of all of this at [LeonVotes.gov](https://www.leonvotes.gov).

And of course, make sure to educate yourself about the candidates and issues, so that you can cast an informed ballot. By doing so, you will be **Election Ready** in 2024.

At the Elections Office, we are committed to providing Leon County voters with the outstanding voter services and and secure elections we all deserve. To this end, I pledge that this office will:

- Always function in a nonpartisan manner.
- Always use paper ballots as the method to capture your vote.
- Continually improve the security of elections.
- Advocate for common sense, voter friendly election laws
- Provide materials such as this Voter Guide to help educate citizens about changing election laws and how, when, and where to vote.
- Provide full access to voting regardless of a voter's physical ability or language barriers. And,
- Lead the state in verifying that our results are true and accurate by conducting full, transparent, and timely audits of every ballot in every election.

So, lets all do our part to be **Election Ready!** And most importantly, get out and **VOTE!**

Mark S. Earley

Leon County Supervisor of Elections

# Election Integrity

## **We are committed to accuracy and transparency.**

That is why we conduct an independent 100% recheck audit of every election. The audit double checks every vote using an independent system to ensure the election results are accurate. The audit confirmed the accuracy of the 2022 general election results to within 99.9926 percent across every vote on every ballot. These steps ensure voters can be confident in the election results. Our systems are certified by the Florida Department of State and we test them before and after each election. And critically, all voting in Florida is done using a paper ballot.

There are layers of security and procedures that maintain the integrity of our elections. We conduct maintenance on the voter registration list every year to ensure that only eligible voters are registered. And before someone can be added to the voter rolls, we verify their identity.

Voting-by-Mail has similar safeguards. We only mail out ballots when a voter has requested one. When we receive the ballot back, we do not remove it from the envelope until after we have confirmed that it was returned by the voter through signature verification.

All this activity takes place in a public environment. Poll watchers observe in-person voting. We only open and count Vote-by-Mail ballots during public meetings. And, nearly every record related to the election is a public record open to inspection or copying.

Our elections are secure, and the results can be trusted. Learn more at [LeonVotes.gov/Trust](https://LeonVotes.gov/Trust).

# Your Party Affects Your Primary Election Ballot

Florida is a **closed primary** election state. The races and candidates that appear on your primary election ballot depend on your party affiliation. If you do not select a political party when you register, you will be registered with No Party Affiliation.

## **Presidential Preference Primary Election**

In this election voters with a party affiliation vote for the presidential candidate they want to represent their party in the General Election. If your party is not participating in the PPP or you are registered with No Party Affiliation, you will not receive a ballot in this election.

## **Primary Election**

In this election, voters receive a ballot based on party affiliation. You may only vote in a partisan race if you are a registered member of that party.

There are also non-partisan races on the ballot and all voters can vote in these races regardless of party.

In addition, if all candidates for an office have the same party affiliation, and the winner of the primary will be elected to office, then all voters can vote in that race regardless of party affiliation. This is known as a universal primary.

## **General Election**

In this election, voters receive the same ballot regardless of party. You can vote for any candidates on your ballot.

## **Automatic Restoration**

For most crimes, voting rights are automatically restored once the person convicted of a felony has completed all terms of their sentence. This includes parole, probation, and payment of fines and fees. Automatic restoration does not apply to felons convicted of murder or sexual offenses.

**Questions about how fines, fees, costs, and restitution affect the restoration of your voting rights?**

# What to Expect When you Vote in Person

Voting in person should be a quick and easy experience. This is what you can expect when you vote in person:

1. Present valid ID with a photo and signature. The election worker will verify your information.
  2. Sign the electronic poll book.
  3. The election worker will give you your paper ballot and a privacy folder.
  4. Walk to an open privacy booth.
  5. Vote your ballot using the marker provided in the privacy booth. Make sure to bubble in the ovals completely.
  6. Review your ballot. If you wish to change anything, ask an election worker for a new ballot.
  7. Place your ballot into the voting machine, and wait for the machine to accept your ballot.
  8. Collect your "I Voted" sticker as you exit the voting area.
- If you need help ask an election worker for assistance.

## Voting Machines

All voting in Florida is done using paper ballots. We only use machines that are certified by the Florida Department of State. Before each election we test all the equipment to ensure it is properly counting votes. Then we publicly audit the results to ensure they are correct.

# Accessible Voting

We are committed to aiding voters with disabilities and ensuring that everyone can exercise their right to vote. If you need assistance when voting, ask the clerk at the voting site and they will be happy to help.

## **Assistance at the Polls**

You can bring a helper with you to vote. They can be in the privacy booth with you to assist you with marking and voting your ballot. You can also request help from election workers.

## **Voting Equipment**

All Early Voting sites and Election Day polling places are accessible and supplied with equipment that helps voters with disabilities cast their ballots. You can use it to mark your ballot in secret with little or no help from other people. For voters with blindness or low vision, the system has an audio feature that will read the ballot to you.

## **Voting-by-Mail**

With a Vote-by-Mail ballot, you can vote from the comfort of your home. You can have someone help you mark your Vote-by-Mail ballot, but you must sign the certificate on the envelope. We have an accessible Vote-by-Mail option for voters with disabilities. Contact us to learn more.

## **Language Assistance**

Ballots and other documents are available in both English and Spanish, including Vote-by-Mail ballots.

We use a translation hotline that can translate hundreds of languages into English. Using this service, we can provide you with assistance in your native language. This service is available over the phone, at each Early Voting site, and each Election Day polling place.

# Provisional Ballots

If we are unable to confirm that you are eligible to vote, you will not be turned away. Instead, election workers will give you the option to complete a provisional ballot. This back up voting option protects your right to vote while preventing fraud.

An election worker will help you if you need to vote using a provisional ballot.

## Reasons for Voting a Provisional Ballot

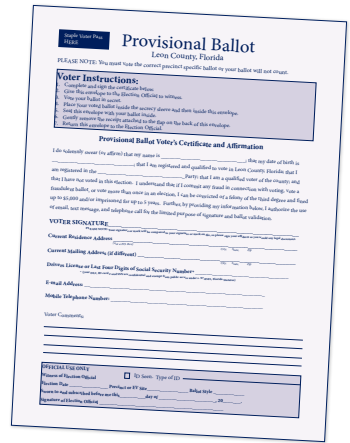

- Your voter record cannot be located.
- You did not bring proper ID.
- Your eligibility to vote cannot be verified at the voting site.
- Your eligibility to vote has been challenged.
- You may be at the wrong Election Day polling place.
- You may have already voted in the election.

## Counting Provisional Ballots

After Election Day, election staff will research your voter information. You can provide us with additional evidence to support your eligibility to vote. Election staff will give the research and evidence to the Canvassing Board, who will decide whether to accept or reject your ballot.

If you completed a provisional ballot because you forgot to bring ID to the polls, you do not need to provide additional evidence.

You can check on the status of your provisional ballot at [LeonVotes.gov](https://LeonVotes.gov) or by calling (850) 606-8683.
