**Leon County Supervisor of Elections Joins #TrustedInfo2022 Campaign**

**Leon County, FL** – Mark S. Earley, Supervisor of Elections for Leon County, partners with Florida Supervisors of Elections (FSE) and Florida Secretary of State Laurel M. Lee in support of the #TrustedInfo2022 campaign.

Led by the National Association of Secretaries of State, #TrustedInfo2022 is a voter education initiative that promotes state and local election officials as the trusted sources of election information. “Florida voters can be assured that their local election administrators work with the highest levels of integrity to ensure that every ballot is counted accurately,” said Mark S. Earley, Supervisor of Elections for Leon County and President-Elect of FSE. “My office is planning on using #Trustedinfo2022 to guide Florida voters to reliable information so they can vote with confidence.”

“The biggest threat to our democracy is election misinformation, disinformation, and malinformation (MDM) that undermines voter confidence in the integrity of our elections,” states Wesley Wilcox, Marion County Supervisor of Elections and FSE President. “Florida voters can be confident that our elections are accurate and conducted with the highest levels of integrity and transparency in our nation. We are committed to ensuring voters have access to accurate election information during the 2022 election cycle and beyond.”

“The spread of misinformation and disinformation to influence voters and interfere with elections is a key concern,” said Secretary of State Laurel M. Lee. “We are grateful to be partnering with NASS and the Florida Supervisors of Elections for the #TrustedInfo2022 campaign to ensure that voters in Florida know that we are THE trusted sources for elections information.”

Together, our goal is to ensure the integrity of Florida’s elections and to support fair, honest, and accurate elections in Florida. As elections professionals, we want to highlight our commitment to being the official trusted sources of election-related information in Florida. While there is a lot of information about voting and elections on the internet and social media, not all of it is credible.
